

Using Movie Pro App

Before using the Movie Pro App for video capture, you must first make these adjustments to the settings in order for it to work correctly.

BEFORE YOU BEGIN:

Ensure the Movie Pro App has been updated on your device. Once all updates are applied, continue with the initial setup of the app

Step 1: Open Movie Pro App

Step 2: Click the Settings button and open settings for Movie Pro

Step 3: In the settings menu, Click “Save Videos To”

Step 4: Select “Camera Roll” and close settings.

And you are now ready to record and capture videos on your Padcaster system.
